

Scatterplot Baseline Form

1. 2. 3.

Student's Name: _____ Grade: _____ School: _____ Observers: _____

Problem Behaviour(s): _____

Instructions: For each instance of the problem behaviour as defined above, record a tally (or letter code if there is more than one behaviour being tracked) in the appropriate space according to the day and time period in which it occurred. Then, record your observer code in the small space to the right of each column.
